Your Role
Your role in the study will be to provide our research team with access to a small group of young people (aged 14-17yrs) who we will ask to take an online survey. We ask that you allow us about 10 minutes during, before or after activities to introduce the survey and to distribute flyers. Surveys will be conducted outside of time allocated for the organisation’s activities.

The Survey
The survey will be conducted online at public venues chosen by participants. Upon completion, participants will be asked to refer three friends/relatives to complete the survey. The surveys will run from June until December.

Acknowledgements
Adolescents who participate in the survey will receive a $15 JB Hi-Fi Voucher. For each successful referral they make, they will be awarded with an additional $10 voucher (maximum three referrals).
